

Meeting Agenda

Date: thursday 11/5-17

Chair: Matilda

Participants: Moa, Alice, Matilda.

start 13:00

1. Objectives (5 min). Resolve any issues preventing the team to continue. - Short clear descriptions

- Not sure if service is implemented in a proper way.
- Still not found out how to make power ups handling user controls.

2. Reports (15 min) from previous meeting - Each group member reports outcome of assigned issues, see also 4)

- We have fixed the background. Now it has images and the images are changing when you level up.
- Cleaned up the code and started using List the interface instead of ArrayList.

3. Discussion items (35 min) - Discuss issues from 1 and 2, possibly new or more general issues (very short notes and/or keywords)

- Maybe we are going to settle with the power ups that exists now and make them work in a really good and stable way instead of finding out how to make new ones that controls the user input.
- To make sure that service is OK we can ask someone.

4. Outcomes and assignments (5 min) - Outcomes from 3). I.e. write down what's decided and why it was decided? Sync with other documentation (add terms to wordbook) - From outcomes, 1), 2) and 3) (re)assign each group member issues to solve.

- Maybe Matilda is going to email our supervisor about the service.
- We think that it is more important to have a nice design in our code and make it work more stable than broaden the functionality.

5. Wrap up - Write down unresolved issues for next meeting. - Time and location for next meeting

- Clean up the code and check over our design.
- The next meeting will be held on Wednesday 17/5-17.
