

## Meeting Agenda

**Date:** friday 25/3-17

**Chair:** Moa

**Participants:** Moa, Alice, Matilda, Leyla.

start 14:06

**1. Objectives (5 min).** Resolve any issues preventing the team to continue. - Short clear descriptions

- There is some insecurity about the Maven project (connected to IntelliJ) - if it's started up correctly.
- Not all of us have Maven fully implemented.

**2. Reports (15 min) from previous meeting** - Each group member reports outcome of assigned issues, see also 4)

Since this is our first "official" meeting we haven't yet got anything from earlier to discuss.

**3. Discussion items (35 min)** - Discuss issues from 1 and 2, possibly new or more general issues (very short notes and/or keywords)

- About the Maven project we think that we'll discover pretty soon if we have generated it correctly. Since there are many different tutorials to follow and we've chosen to follow a pretty simple "get started in 5 minutes" kind of tutorial we aren't totally sure if it'll be enough. But we think that if we have the POM-file it should be fine. But to make sure everything's good we're going to ask about this on our next meeting with our instructor.
- We're going to keep working on getting Maven implemented correctly for everyone in the group.
- On previous unofficial meetings we have discussed the basics of the game that we're going to design. Some details are more thought through than others, but the big picture is pretty clear. We feel that while creating the RAD Document we will get deeper into all aspects of our design, so that we can all agree on the plan for this project.

**4. Outcomes and assignments (5 min)** - Outcomes from 3). I.e. write down what's decided and why it was decided? Sync with other documentation (add terms to wordbook) - From outcomes, 1), 2) and 3) (re)assign each group member issues to solve.

- We've decided to try and get our Use Cases done today, but at least have them ready til the next wednesday.
- We've decided to create our RAD Document on tuesday next week.
- We are going to use our next meeting with our instructor to ask about the Maven project in IntelliJ.

**5. Wrap up** - Write down unresolved issues for next meeting. - Time and location for next meeting

- We feel like we are all clear about what's coming next and what issues we need to solve, both in the group and by asking our instructor.
- The next meeting will be on Tuesday 3:15 om (28/3-17).
